JUSTICE 1

But people must understand that the word is the pedal of thought—that each word is a thunder-bearing arrow.

Loss of the true significance of concepts has contributed much to contemporary savagery. People strew pearls about like sand. Verily, it is time to replace many definitions.

New Era Community #47

Just to start, I think that Justice is one of the more maligned “Pearls” in the Hierarchy of the Principles of Physics which are the Cosmos. A few of the other Principles, also maligned to relative degrees, are pearls we name as Freedom, Liberty, Beauty and Truth. This maligning of Principles is not the result of simple ignorance. Rather it is the result of the calculated efforts of those within the Human Family who have over the centuries of evolution become very powerful and work constantly by subversion and overt acts of terror and efforts to dominate the Free World to maintain their separative, exclusive wealth and power, and to literally prevent the overwhelming majority of human beings to participate and evolve in the equilibrium of Justice.

Humanity does not make justice. Justice is. Justice embodies all forms in cosmos from a quark to a constellation. Justice is the Physics that keep the planets of a solar system in their orbits or quarks in manifestation.

Justice is equilibrium or balance. Justice is the presence of the manifestation of forms in matter. There can be no forms without Justice, or balance, or integrity, or equilibrium. Justice is never One. It is

always 3: The positive or initiating energy, the receptive or negative energy and the energy that links the positive and negative into a whole. These are the energies which time has designated, and thereby made rather obscure, as The Father, the Mother (and at least in the west) the Holy Ghost.

We will have some few remarks to make about this last descriptor which was the product of early Catholicism later.

In the language of higher physics, the linking energy is called love. There can be no Justice, no lasting forms without the binding energy of Love. None of the Laws of physics, those physics which concern dense matter and those physics which concern Cosmic Energies such as Liberty, Freedom, Beauty, can be violated. That is why they are called Laws.

All dense physical forms like constellations, solar systems or planets, or machine guns, bombs and air planes, conform to these Laws. Also, the non-dense forms used by humanity to organize its presence on the planet, like the political, economic, and educational, systems, must conform to the laws of physics to maintain their presence. Systems: governments, economic, political that are not in harmony with these Cosmic Laws will sooner or later disintegrate. We see this cycle as

There can be no Justice, no lasting forms without the binding energy of Love.

Evolution. Humanity is and has from the beginning been engaged in the effort to “build a more stately mansion”. History contains the feeble remains of our efforts so far

Free Will

Humanity has Free Will. How we develop and use these forms is up to us. When we develop or use these forms in manners that are out of harmony with any of the Laws of physics, in ways that upset the natural Justice or Equilibrium or balance of Life, including Human life, on the Planet we generate pain suffering and death.

These effects are not the work of some angry old guy with a beard punishing his misbehaving children. They are the unavoidable results, the lessons of trying to work outside of the Laws of Physics that govern the Cosmos. These effects are, as are the effects of generating Beauty and Harmony when working within the Laws of cosmic Physics, unavoidable.

This is Justice, perfect harmony, balance, and beauty, like a ballerina on her toes.

“Hope” is the thing with feathers -
That perches in the soul -
And sings the tune without the words -
And never stops - at all -

And sweetest - in the Gale - is heard -
And sore must be the storm -
That could abash the little Bird
That kept so many warm -

I’ve heard it in the chilliest land -
And on the strangest Sea -
Yet - never - in Extremity,
It asked a crumb - of me.
