Things End! Things Begin!

We are well into phase three of the world war that was initiated by Retrogressive Forces in 1914. The first phase known, as WW1, ended in 1918, the year before the last seven year cycle of the 100 year Plan that Hierarchy initiated in 1825. The second phase, WW2, in which the Forces of Light also triumphed, was from 1939 through 1945.

Since the forces of Light also possessed the Atom bomb, total war on the dense physical was no longer an option for the Retrogressors. However, they have still initiated any number of “small” wars to gain their ends: Korea, Vietnam, Afghanistan, for example. The third and probably last phase of this struggle has been raging on the emotional and mental planes since.

In each of these wars, the forces of Light have been engaged in the ongoing struggle over the Evolution of the Plan with ancient Retrogressive Forces. (See *Milton's Paradise Lost* book 1 and 2 for a detailed review of The Retrogressors' long range counter Plan to the Plan, and *A Treatise On The Seven Rays* V P. 350) Recall that by 1400, “an intense differentiation and crystallization among the nations and governments of the world” *Treatise on White Magic* p.401 had reached a peak. In response to this a Conclave of the Hierarchy was called in 1500. The objective of this Conclave “...was to determine how the urge to integration, which is essentially the keynote of our universal order, could be hastened, and what steps could be taken to produce that synthesis and unification in the world of thought which would make possible the manifestation of the purpose of the divine life which had brought all into being.” *Treatise on White Magic* p.402

The Retrogressive Forces obviously responded to this effort with their usual tenacity and skill. The history of the planet over the past five centuries documents Humanity's very bloody struggle to evolve from the separative consciousness of literal ownership and rule of individuals by a powerful few to the group consciousness of freedom and recognition of each one's free will and the government of, for, and by the People. This bloody struggle, culminating in the first two stages of the most recent world wars, ended with the immediate obliteration of the cities of Hiroshima and Nagasaki, the immediate deaths of roughly 110,000 human beings of all ages and sexes, and roughly another 110,000 over the next several months. https://en.wikipedia.org/wiki/Atomic_bombings_of_Hiroshima_and_Nagasaki

It seems that it has become clear to all that at this point in human history, another round of war on the dense physical plane would result in total devastation of the planet. However, as I said we are now deeply involved with Retrogressive forces in the third and, so far, not quite so relatively bloody stage of this battle. In his remarks regarding the 1500 Conclave (the beginning of the 16th century), D.K said, “...*this state of affairs marks the summation of the period of separativeness and the end, before so many centuries, of this intense distinctiveness of thought.*”

(What “**not so many centuries**” means is ponderable. Remember, the documentable knowledge of the human relations of our history goes back some 6 or 7 thousand years or 60 or 70 centuries. So the 5 centuries since the 1500 Conclave is, “not so many.”) What this comment means in simple English, is that

consciousness has very rapidly evolved over the past 5 remarkably bloody centuries sufficiently to shift the balance of the focus of Humanity away from the self-centered illusion of the individual being totally separated from and consequently involved in a battle for survival with all other human beings to the conscious realization of the inclusiveness of the One Humanity and thus into “that synthesis and unification in the world of thought which would make possible the manifestation of the purpose of the divine life which had brought all into being.” *Treatise on White Magic p.402*

So, now in the last seven year cycle of the 100 year plan initiated by the Hierarchy in 1925, we approach the “Three Linked Festivals”. These festivals--Aries, Taurus and Gemini,--are the in-breath cycle for the greater 2019 cycle. They initiate, register, and generate the initial formulation of the goals for the 2019 cycle. This initiating energy (Rays 1 and 7) is coming from the Constellation Aries. Aries “...is the birthplace of ideas, and a true idea is in reality a spiritual impulse taking form—subjective and objective.” *Esoteric Astrology p.92*

2018 started the last seven year cycle of the 100 year Plan that Hierarchy initiated in 1925. As we know, the sun enters Aries in 2019 on March 20th at 2 PM P.S.T., and the full moon is 3 hours and 44 minutes later on March 20th at 5:44 PM P.S.T. The 2019 cycle has two full moons in Aries.

It is inconceivable that the Planners were not aware of these facts when they initiated the 1925 Plan. We can only wonder at the nature and power of these incoming “Spiritual Impulses”.

We have noted the increasing speed with which hugely significant world events are occurring. You could say that things are being wrapped up in preparation for the initiation of the 2025 100 year Plan. Another remarkable event to consider is why this explosion of the number of units of consciousness who have incarnated into the denouement of the 1925 100 year cycle?

The Living Plan

The Plan, as we know is not some document on a piece of paper. It is not a theory or a contract. It is a non-dense-physical organismic formulation, a living thoughtform that has been evolving for longer than we can imagine toward a foreseen goal through an ever expanding consciousness. The Plan as breathed forth from Hierarchy, our planetary Heart center, is based on a “Plan” which Hierarchy received as a “download” or, if you prefer, an in-load or up-load from Shamballa our Planetary Head Center. And what is seldom mentioned or even thought about: Shamballa is also planning based on input from dimensions higher than the Cosmic Physical Plane.

An Eye Blink in Time

We need to understand that 5 centuries in terms of the 70 or so documentable centuries of the history of the planet, to say nothing of the millions of centuries about which our feeble concrete science can only speculate, is an eye blink.

It is also necessary to understand that evolution contracts as it expands. As we liberate ourselves from this physical one dimensional illusion of Reality, less becomes more. “...a true idea is in reality a spiritual impulse taking form”. To comprehend, that is embody, a spiritual

impulse is.....well this is what our musicians, our poets, our heroes do. It is what it means to live as a Soul, to be a caring loving person regardless of station. It is what evolution is all about.

Meat Bound

**Caught in this fleshy density,
Imprisoned behind these bones,
Peering through pulpy eyes,
He arrogantly proclaims,
"I Am."**

**While still meat bound, man—
One level living, and that the least—
Cannot see the unfolding Plan.**

**But freed finally from form,
And finally, finely formed—
Exquisitely shaped,
With sinews of light
And eyes of fire—
He stands before the Open Heart.**

**A seven hued Ray streams form the sky.
I am That, he cries, and That am I.**

There is another factor involved in our evolution that because of our "meat bound focus" does not get much attention. Evolution from our separated point of view is a process that works from the lower dimensions up. In fact it is the Planet that is evolving. What happens on the dense physical planes is an effect of what has occurred on the higher Cosmic Emotional and Mental planes.

Evolution is not waiting for humanity to evolve. Humanity is evolving because the Planet is evolving. Keeping in mind the amazing rapidity with which Humanity has evolved in the past 5 centuries, consider this "offhand" comment from some 65 or 70 years ago from Master D.K. "It might be added that our planet is, in the immediate cycle, owing to the factors I have lately considered with you, rapidly passing out of this category, [being a non-sacred planet] and on the inner planes and subjectively considered is a sacred planet; the effects of this transition from non-sacred to sacred have not fully demonstrated themselves objectively. *The Rays and the Initiations p.414*

The point here is that the effects **are** being "demonstrating objectively". The energy field which is relatively rapidly becoming dominant on the planet will not be tolerable for those units of consciousness who have not as yet liberated themselves from the bondage of self-absorption. They will have to continue their processing on a planet more conducive to their individual conditions.

It only makes sense. It is science. It has to do with the ability of a form to embody various frequencies of energy. It is called evolution.
