

The Long Game

Shield and lance! God has blessed the warriors.

All will come. Twilight will end.

Do you not see that the Cosmic Consciousness is in convulsion?

We know the course of the battle—the Plan of the Creator cannot be altered.

From the Beginning the dark ones struggled.

From the Beginning We conquered.

Leaves of Morya's Garden I #231

If we consider that it took some 17 million years to get here, we have for the past 500 year or so been experiencing an incredible speed up of the evolution of Humanity. 500 years ago (which in terms of just the known history of humanity was like yesterday) it is estimated that world population was some 460 million individuals. As was always the case of previously known history, 90% of the humans living in that time, were more or less, the property of some variety of King or Queen.

Over these past 500 years of evolution, reincarnation, and struggle on this planet, many, many individuals have discovered and taken various paths which lead from being an object or property to being a free self-directed human being. Many have also discovered and taken Plato's path out of the delusory cave of a one dimensional prison of fake reality and into the Reality of the multidimensional Cosmos. The major portion of the struggle that led to these and other major revelations occurred during just the last few centuries. These were the almost constant appearance of the bloody killing types of wars all over the planet. With few exceptions, in these first two hundred years much of the war was generated, as it had always been in the Ages of Delusion, by individual Kings and random Princes indulging their sense of personal effrontery and natural superiority over other Kings and Princes.

However, by the mid 17th century the "common" people, as a result of taking those paths had begun to rebel against the concept of Kingly "ownership". Wars of ideology and political superiority broke out. France, and what was to evolve into the United States of America emerged as New Nations with a new kind of government. Among other things, this Path, you may recall, included, the Revelation that all men are created equal, and are endowed by their maker with certain inalienable Rights, and, after a bloody civil war, that no human being can be owned or could be property!

After the U.S. Civil War that had to be fought, 1861-1865, to eliminate the actual physical ownership of human beings or slavery, it was not until Fascism and its appearance in Europe as the Nazis that we once again had to go All In. This time it was on a global scale, to protect and continue the evolution of Humanity.

After some 75 million dead and the destruction of many of the major cities in the world, Humanity succeeded in that effort, and we experienced a kind of mini "golden age." The United Nations was founded in 1945. We launched the Marshall Plan, an American initiative passed in 1948 for foreign aid to Western Europe. The United States

transferred over \$12 billion in economic recovery programs to Western European economies after the end of World War II. On Invocation Day, 1952, Eleanor Roosevelt read the Great Invocation.

However, with the election of Reagan as President of the United States on January 20 1981, the Retrogressive forces unveiled their new offensive. This assault was not launched on the dense physical so much as the lower mental and emotional planes. The target was not a dense physical country or state; it was the entire Idea of Democracy, of Government of for and by the People

This assault manifested once again as an “Alternate Truth”! Practically the first words out of the mouth of a newly elected president were “Government is the Problem.” **R. Regan Inaugural Address January 20, 1981.** With this statement, Government of for and by the People became the enemy of the People. The only fix for this dreadful “government disease” was the new “Truth” of Government of the people by Business or actually by the owners of Business.

This version of the alternate Truth was really just a new form or look for Fascism or Nazism. It had, and has, the same objectives as the Retrogressor’s anciently “planned distortion of the divine will” **Rays and Initiations P 351** This was and remains an effort to maintain the delusionary systems of the “divine” right of Ownership of everything by and for the “10%”, “the chosen few”, “the super wealthy” or to use an ancient term ROYALTY. For the remaining 90%, this old lie dressed up as a “new truth” did, of course, have a graduated system or ladder that lickspittles and sycophants could climb and achieve some form of association within these awesome ranks. As we can see, in the U.S., with 3 individuals owning more wealth than the bottom 50% of the population, this effort has been quite effective. **Inequality.org**

In just the very recent 250 years this “wider” view of our evolutionary development as Human Beings has reached a climax with the present incredible revelations of how this ancient Alt Truth actually functions. Hitler’s regime provided numerous demonstrations of what the Nazi visions of truth for humanity look like in action. Today, similar, unavoidably obvious revelations of what the new fascism would look like have been and are continuing to be provided for our experience by Trump’s four year example as president. We also have the January assault on the Capitol of the U.S. and his continuing efforts to this day to manifest the Alt Truth, that he won the election.

We sink when we began to identify with the Alt Truths of separative desires. We get overpowered by the comfort or hatred, as the case may be, of our immediate circumstances. It becomes easy to turn a blind eye, to ignore the suffering and pathos of the vast majority of our sisters and brothers.

Today the U.S. is the “richest” nation in the world. Our present population is somewhere between 330 and 350,000,000 persons. 640 of these are billionaires. A \$15 per hour wage is being called too much!

\$15 an hour, if one is lucky enough to have a job that pays that much, equals \$2400 a month. Today in the U.S., some 46 million people, 11+ millions of whom are children, are living in poverty. Poverty currently means about \$2,000 a month for a family of 4. The very fortunate family who happens to have a \$15 an hour income from employment is living just \$400 a month away from poverty. On the other hand, if one manages to stay employed, one can make a billion dollars in just 34,500 years.

These are the everyday facts of the situation for millions upon millions of our sisters and brothers. It is good to realize these facts, because we are once again being faced by Retrogressive forces with an all out assault on the basic premises upon which this Planet exists.

In spite of, or if you consider *Tactica Adversa*, as a result of this apparently devastating dense physical situation, the expansion of group consciousness in Humanity has been explosive over the past 40 years. We are undefeatable as we demonstrated in the World Wars. We make worldwide progress when we understand what is going on and align under the concepts of the Common Good and General Welfare. ***By no sort of forbiddance can anyone interrupt the path of evolution. The ignorant can create convulsions in cognition, rebellions, and destructions. Precisely by forbiddance the ignorant evoke waves of chaos, but the universal law will overcome all the dark stratagems. Ignorance must be eradicated.*** Aum #595

This Path for Humanity upon which we have had to tread during our incarnations these past 500 years is still the ancient path of the delusion of a one dimensional reality. As is still very much in evidence, this is a system in which individual value is based on how much wealth or matter one can accrue, and the level of power this gives one over others. This delusionary path diverts our consciousness from the fact that **what matters is not what possessions we have or do not have but what we do with what we do have.**

The Fact is that all there is, is energy! The current capitalistic system of owning and having exclusive use of energy thus creating the delusion of poverty and billionaires is a dying dinosaur. It would be good if this ancient beast were trapped in a huge pool of quick sand so that its dying throes would not wreck the planet. At any rate, As a great Initiate once said, "... **government of the people, by the people, for the people, shall not perish from the earth.**" 11/19/1863 A. Lincoln
