THE COMMON GOOD

Indeed, as a sealed vessel, as an unplundered mountain, as a bow tensed with an arrow—thus stand! And as a drink from the vessel is flaming, and as the mountain is inexhaustible, and as the arrow is lethal—thus act! For who dares to affirm that difficulty is not the speediest attainment! Rivers of milk will turn sour, and shores of jelly are inconvenient for sitting. Thus, in the armor of personal responsibility let us make haste.

If whatever is “good” for you but “bad” or not good for others, then it is not GOOD. Having one U.S. citizen own \$219,000,000,000 while 30,000,000 other U.S. citizens live below the poverty line of \$12,880 a year in 2022 is not GOOD.

The handful of “God” appointed individuals of the previous thousands of years who literally owned everything including human chattel or slaves, were called Kings. The current hand full of humans who currently own a great deal of everything are simply called Billionaires. Percentagewise, there are about the same number of current Billionaires as there used to be Kings.

However there has been the semblance of some progress. Ratified on December 6, 1865, the 13th amendment abolished slavery in the United States. It basically removed all humans from being chattel or objects or things, to being Human Beings. So, it is against the Law now for the current Kings or billionaires to “own” Human Beings as individual pieces of property.

The modern version of the Kings and their lackeys—dukes, earls, viscounts, barons and so forth—is present in the creation of Corporations. They have titles paralleling those of duke, earl, viscount, such as CEO, VP, CFO. Now, however, there are no chattel slaves as such. One must pay people who work for them. Hence the creation of wage slaves.

But do not be alarmed about all of this! Right? I mean this is just business! It is the totally natural function of the basic Pseudo Law, Might Makes Right!

The ownership of humans by a tiny number of powerful—which means super wealthy—other Humans was just a natural effect of the that Law. This new bit is just another iteration of the ancient Con, Might Makes Right. The con is still alive and well. Only its name is new. It is currently called Capitalism. Other than the names, there is nothing basically new in the current situation.

Might Make Right currently masquerading as Capitalism is the Cave of Delusion. It is not a product of Love. Its purpose is not to generate Life, Liberty, and Justice for All. It is

a product of chaos, an ancient heartless power driven by Evil. The purpose is to keep Humanity enslaved in the cave of separation and the delusional ownership of Property.

As we said, there is nothing new in this situation. MM pointed out in ***Hierarchy, 1933***, that Humanity has been here before. ***“Unfortunately, the present time fully corresponds to the last period of Atlantis. The very same pseudoprophets and a pseudo savior; the same wars, the same treasons and spiritual barbarism. We take pride in the crumbs of civilization; the Atlanteans likewise knew how to fly across the planet in order to speedily cheat each other. The temples likewise became defiled, and science became a subject of speculation and dissension. The same occurred in construction, as if they did not dare to build solidly! Likewise, they rebelled against Hierarchy and were stifled with their own egoism. Likewise, they disturbed the equilibrium of the subterranean forces, and by mutual efforts a cataclysm was created.” Hierarchy #145 1931***

Master M was talking about the then approaching second world war. And it seems very likely that we are again cycling through that very similar field. As we know, by virtue of some help from the Hierarchy, in the 5th Subplane of the 5th Round, The Forces of Light eventually defeated the Evil forces, known as the Axis Powers and actually established a form for moving ahead called the United Nations.

However, the UN was quickly rendered practically useless mainly by the veto power of Russia who has presently established itself as the present threat to Life on this Planet. Fortunately, we do have NATO. The U.S. is sort of the heart of NATO, and we need to maintain a strong visible connection with NATO.

Many Retrogressors are now and have been from the get-go in the U.S. Government. How do you suppose slavery got to be a part of our original Constitution? Some of these individuals are greatly opposed to our participation in the NATO effort to stop the insane ruthless attacks of Russia. Others are simply interested in maintaining their personal positions and are more or less the lackies or mouthpieces of power and wealth. The only tool we have to check this issue is our Vote. We need to maintain a strong visible connection with NATO, stop the Russian aggression, and avoid an atomic cataclysm all by voting.

Now, it is very clear that **a vast majority** of the 8 billion Human Beings (including the 3 hundred and fifty million who live in the U.S.) who are presently incarnating on Earth are naturally concerned for the Common Good. This concern is not just for our sister and brother humans, but for the whole planet including animal, plant, and mineral Kingdoms. Especially since the advent of the atomic bomb, voting is really the only rational tool we have to continue our evolutionary process. We have always made our intentions clear by voting for them, and peacefully following the will of the majority. However, we can

and have gone to war to protect these Basic Human Rights from the greed and power of the Retrogressors. Now, however, a world war does not seem to be a useful solution.

It has been a long haul since September 17, 1787, but we are here NOW. **We got here by expressing our Intentions, not by hoping but by doing what was needed to actually manifest our Intentions to be Free.** We VOTED to get here.

Voting is the manifestation of breathing. If we do not vote, we are failing to breath. One of the basic things we first acquired through a bloody war was the Human Right to vote. We have had to persist in this Justice through several terrible wars. However, evolutionary progress was accomplished and progressed through voting and the accepted rule of the Majority.

Making our INTENTIONS clear means voting **for individuals who stand for The Common Good, for Equality and Justice for ALL.** This alone will lead to the eventual replacement of the present economic systems which are based on the delusion that one can demonstrate ones superiority through claiming separate ownership of Cosmic energies like sunshine and dense physical matter. The retrogressive forces are well aware of this condition and have launched an all-out war on Voting. We must do everything we can to protect the Right to Vote.

Voting for Life Liberty and Justice for ALL is the Path to a future of Common Sense and actually unimaginable Beauty and Joy for all, and I mean the entire Planet. All we have to do is demonstrate our Love by VOTING. Think about that. Think about voting about, what it really is and what it really means. Energy follows thought. So vote, and encourage voting. Let us do whatever we can to protect this Devine, painfully won Human Right from manipulation and destruction by the insane retrogressive forces.
